EDUCATION

Java Full Stack Development
Brototype
August 2022 - Present
Kozhikode, Kerala

Higher Secondary Education - Computer Science
MARKAZ HSS
June 2020 - March 2022
Kozhikode, Kerala

PROJECTS

Resort Management System *Spring Boot, ReactTS, MySQL, PostgreSQL, MongoDB, Kafka, Redux* Source Code

- Designed and Developed a full stack resort management and booking system using **React JS/TS and Spring Boot**
- Built a **Microservices architecture** to handle the various components of the system.
- Implemented using different databases for different microservices like **MySQL, PostgreSQL and MongoDB**
- Used **Kafka** for asynchronous email service.
- Implemented **Payment gateway** using **Razorpay**.
- Implemented **OAuth2 Authorization** for Social Login with Google, Facebook and GitHub
- **Multi-Module Application** in Front end for admin and user.

Ecommerce Application *Spring Boot, Thymeleaf, MySQL, JavaScript, jQuery* Source Code

- Developed an **e-commerce platform** built with **Spring Boot, MySQL, Thymeleaf and Hibernate** allowing customers to browse and purchase products online.
- Implemented an admin panel with five types of roles **(admin, assistant, shipper, editor, salesperson)** to manage products, COD, shipping, product inventory, order processing, customer information, etc.
- Implemented **Payment gateway** using **PayPal**.
- Uploaded images into **S3 Bucket** for cloud support.
- Implemented **OAuth2 Authorization** for Social Login with Google and Facebook.

CMS Website *Nest JS, React JS, MongoDB, Node JS, Tailwind* Source Code

- Developed an **Content Management System** (CMS) Website for a Construction Company, built with **Nest JS, React JS, MongoDB, Node JS, Tailwind** allowing to manage contents in the Company Website.
- Admin Panel to Manage Contents.
- Uploaded images into **Firestore** for cloud support.

Blog Application   *Next JS, React, MongoDB, JavaScript, Prisma*   Source Code

- Developed an **Blogging Application** built with **Next JS, React, MongoDB, JavaScript, Prisma** allowing users to write blogs.
- Users can log in using Google Account
- Used **Prisma** for relational Object Relational Mapping.
- Uploaded images into **Firestore** for cloud support.

SPS Multiplayer   *ExpressJS, NodeJS, ReactJS, JavaScript, Socket.io, MongoDB*   Source Code

- Developed an simple **multiplayer** rock paper scissor game using **NodeJs, ReactJs and Socket.io** allowing users to play game each other.
- Users can join through a link created by a friend or can play with random strangers.

To-Do Application   *ExpressJS, NodeJS, ReactJS, JavaScript, MongoDB*   Source Code

- Developed a simple **TODO** application using **NodeJs, ReactJs, and MongoDB** allowing to add, edit, delete, and update todos.
- User can check the completed todos.

OLX Clone   *ReactJS, Firebase, HTML, CSS*   Source Code

- Developed an **OLX** clone application using **ReactJs and Firebase** allowing users to list their products to sell.
- Users can also signup and sign in.

Ecommerce Application (MERN)   *ExpressJS, NodeJS, ReactJS, JavaScript, MongoDB*   Source Code

- Developed a simple **E-commerce** application using **NodeJs, ReactJs, and MongoDB** allowing to add, edit, delete, and update products.
- Integrated payment gateway using **Razorpay**.

Collection Application   *ExpressJS, NodeJS, ReactJS, JavaScript, MongoDB*   Source Code

- Developed an simple **Collection** application using **NodeJs, ReactJs and MongoDB** allowing user to manage customers monthly rent payments.

CERTIFICATIONS

GUVI INDIA
Build a Face Recognition Application using Python   *View*

INTERESTS

Hiking, Football, Sci-Fi movies, Novels, Web accessibility, Personal Coding

LANGUAGES

English, Malayalam
